INBOUND LOGISTICS
TOP 100
LOGISTICS IT PROVIDER 2024

TOP 100
LOGISTICS & SUPPLY CHAIN
TECHNOLOGY PROVIDER OF 2024

NorthStar Digital Solutions Recognized as a Top 100 Logistics & Supply Chain Technology Provider of 2024

Inbound Logistics has announced their Top 100 Logistics & Supply Chain Technology Providers of 2024 and we're excited to be ranked on this prestigious list!

NDS was selected among 400+ competitors for introducing flexible, scalable digital solutions to the North American supply chain industry. Utilizing AI, robotics, machine learning, IoT and more, we are helping service providers like Polaris Transportation to streamline operations, establish ease of doing business and create cost savings. One of our latest innovations, FR8Focus has been highly received for bringing enhanced visibility, accuracy and agility to the LTL and truckload market with cutting-edge features including real-time visual asset tracking and automated document processing.

Polaris CTO Dave Brajkovich comments, "NorthStar Digital is honoured to accept this recognition. We have worked hard to innovate, create and deploy advanced technology within the transportation vertical," adding, "We are unique in our ability to perform within an asset-based business landscape where we engage with real-life challenges and opportunities to drive real solutions to the end users."

We are so proud of our team for their achievements in developing advanced technologies that are improving experiences for the shipping community. Earning this industry praise serves as motivation to continue pushing the limits with future digital innovations within the supply chain!
